I. Introduction

1. The present annual report of the Secretary-General on the composition of the Secretariat is submitted pursuant to General Assembly resolutions concerning human resources management, the most recent of which are resolutions 59/266, 60/238, 61/244, 63/250, 65/247, 66/234, 67/255 and 68/252.

2. The report contains a demographic analysis[1] of the global staff of the Secretariat, which totalled 40,131 as at 30 June 2016.

3. The General Assembly, in paragraphs 13 and 17 of its resolution 68/252, requested the Secretary-General to supplement the information presented in the composition report with additional analysis of demographic trends and possible underlying reasons for those trends. The Secretary-General concurs that the analysis requested by the Assembly will enhance the information presented in the report. In order to provide the analysis and trends, the Secretariat will have to make significant changes in the process for the compilation of the report. The changes include adjusting the reporting period of the composition report to enable sufficient time for data analysis involving a number of entities in the Secretariat. Currently, the reporting period covers the one-year period from 1 July to 30 June, with a data cut-off date of mid-July, and the report is submitted for publication at the end of August. As such, the time to produce the report, which includes the consolidation, review and analysis of data, is only six weeks. Therefore, as he did in the two previous reports on the composition of the Secretariat (A/69/292 and A/70/605), the Secretary-General proposes that the data be reported for the calendar year of 1 January to 31 December, with a cut-off date of 15 March of the following year. In that regard, it is proposed that the report to be submitted to the General Assembly at its seventy-third session cover the demographic data for the period from 1 January to 31 December 2017, with a cut-off date of 15 March 2018. The current reporting period for the seventy-first session, covering the period from 1 July 2015 to 30 June 2016, remains unchanged, given that the deployment of Umoja is continuing.

4. Table 1 provides an overview of the structure of the report by section, including demographic variables. Table 2 shows an overview of trends by demographic variable from 2012 to 2016. Table 3 shows the number of staff in the Secretariat and related entities in the United Nations system. The organizational structure in the present report has been aligned with the budgets. In previous reports the organizational structure was presented according to the entity providing the administrative support. The day-to-day operational and management arrangements will remain the same.

[1] Demographic data for the present report have been gathered from Umoja or the Integrated Management Information System, with a cut-off date of 13 July 2016, or were provided directly by United Nations entities.

Introduction (sect. I)						
Staff of the Secretariat and related entities in the United Nations system (table 3)	75 171	73 812	74 960	76 115	75 934	Over the past five years, the number of staff in this category has increased by 1%. The slight decrease from 2015 to 2016 (less than 1%, 181 staff) was due mainly to a decrease in the staff of the Secretariat (see table 3).
All staff of the Secretariat (sect. II)						
Population (table 4)	42 887	41 273	41 426	41 081	40 131	Over the past five years, the staff of the Secretariat has decreased by 6%. The decrease from 2015 to 2016 (2.3%: 950 staff) was the result of a decrease in staff for UNAMID (442 staff) and 37 other entities (1,832 staff), while 61 entities either had no change or increased (1,376 staff) (see table 4).
Category (table 6)						
Professional and higher	12 289	12 220	12 420	12 590	12 837	Over the past five years, the ratio of Professional and higher category staff to total staff has increased slightly from 29% to 32%.
Field Service	4 378	4 103	4 151	4 142	3 981	The ratio of FS category staff to total staff has remained at approximately 10% since 2012.
General Service and related	26 220	24 950	24 855	24 349	23 313	Over the past five years, the ratio of GS+ category staff to total staff has decreased from 61% to 58%.
Appointment type (table 8)						
Permanent/continuing	7 284	7 253	6 993	9 290	8 931	Over the past five years, the ratio of staff on permanent/continuing appointments to total staff has increased from 17% in 2012 to 22% in 2016, while the ratio of staff on fixed-term appointments to total staff has decreased from 78% in 2012 to 70% in 2016. This was the result mainly of the one-time permanent conversion exercise and the first continuing appointment exercise.
Fixed-term	33 501	32 165	32 235	29 242	28 200	
Temporary	2 102	1 855	2 198	2 549	3 000	
Gender (table 10)						
Female staff	14 344	13 985	14 110	14 136	13 955	The ratio of female staff to total staff has increased slightly over the past five years.

Percentage of female staff	33.4%	33.9%	34.1%	34.4%	34.8%	
Age (table 11)						
Average age (years)	42.8	43.4	43.8	44.2	44.6	The average age has increased slightly over the past five years.

Population (table 21)	2 245	2 907	2 901	3 001	2 982	Over the past five years, the number of Secretariat staff with geographical status has increased (33%: 737 staff). The increase in 2013 was due to the extensive review of data conducted by OHRM for staff members counted towards the desirable ranges owing to the change in the criteria for geographical status pursuant to paragraph 66 of General Assembly resolution 65/247.

HR Insight

5. Since the launch of the online reporting tool, HR Insight, in August 2011, staff demographic information has been available to permanent missions. It is based on the human resources data warehouse and enables the retrieval of information from other human resources systems, including the Integrated Management Information System and Umoja, and from other entities.

6. The first release of the tool provided permanent missions with reports on desirable ranges, a staff list and staff details for their respective nationals, such as composition by gender and type of appointment. Those online reports are updated on a monthly basis (with an approximately three-month time lag) and can be downloaded, enabling permanent missions to gain convenient, instant access to often-requested reports from the Office of Human Resources Management and reducing the need to print and distribute printed copies. As such, the tool helps to make the United Nations more environmentally friendly; for example, the list of staff of the Secretariat is available only on this platform, which obviates the need to print thousands of pages per year.

7. Since the first release of the tool, the Office of Human Resources Management has made a number of enhancements, including adding reports that show Member States the separations, appointments and forecast retirements of their nationals, plus a forecast of retirements with respect to all P-5 to D-2 positions. As requested by the General Assembly in paragraph 48 of resolution 67/255, a table showing data on the representation of developing countries for geographical staff per month has been published online. Table 20, showing such data as at 30 June 2016, is included in the present report.

8. Through HR Insight, Member States have regular access to information similar to that presented in the report of the Secretary-General on the composition of the Secretariat. HR Insight presents the information mainly at the staff member level,

while the report of the Secretary-General presents the information at the aggregated level and is produced only annually. Going forward, the Office of Human Resources Management will work to increase the scope to make more of the present report online, thereby giving Member States convenient and monthly access to staff demographic information that was previously available only in the annual report in accordance with the resolution 67/255 mentioned above, thus reducing the number of pages printed and data duplicated across HR Insight and the composition report.

21. Figure V shows the percentages of female staff in various non-field operations, while figure VI shows the same information for field operations. Table 1.B (see annex) provides details regarding all staff, including a gender breakdown, by entity, location, gender, category and appointment type.

[8] As requested by the General Assembly in paragraph 64 of resolution 67/255, the present report incorporates a table showing high-level appointments with one-dollar-per-year contracts. In addition, in a letter dated 30 March 2016 addressed to the Chair of the Advisory Committee on Administrative and Budgetary Questions, the Controller informed the Advisory Committee of the establishment of extrabudgetary positions at the D-1 level and above that were on the basis of contracts whose duration did not exceed 12 months, for which the approval of the Committee was not required. During the period from January to December 2015, five positions at the D-1 level and above funded from extrabudgetary resources were authorized (2 Assistant Secretary-General and 3 D-1); all were full-time positions authorized for a period not exceeding 12 months.

32. In section VIII of its resolution 57/305, the General Assembly approved the proposal of the Secretary-General on the placement of staff members serving in the Executive Office of the Secretary-General (see A/56/816) and requested him to report on the implementation of the procedure. During the period from 1 July 2015 to 30 June 2016, one staff member was transferred from the Executive Office of the Secretary-General to a post at the same level in another department in the Professional and higher categories.

D. Gender

33. For all information on staff movements by gender, see table 14.

E. Age

1. Separations

34. For the period from 1 July 2015 to 30 June 2016, the average age of staff of the Secretariat at the time of resignation was 41.9 years. At the time of resignation, the average length of service in the Secretariat was six years.

2. Appointments

35. Figure XI shows that most appointed staff are in the 35-39 age group.

IV. Staff subject to the system of desirable ranges[10]

A. Population

36. As at 30 June 2016, there were 2,982 Secretariat staff with geographical status pursuant to paragraph 66 of General Assembly resolution 65/247, in which the Assembly decided that staff members should retain geographical status only when serving against a post subject to geographical distribution, except those recruited under the young professionals programme.

37. That provision of resolution 65/247 represents a change in the criteria for geographical status. Prior to 2011, once geographical status had been given, it was retained throughout the period of uninterrupted service of the staff member, regardless of the nature of the position or the functions to which the staff member might subsequently be assigned (see A/65/305/Add.2, para. 21).

[10] As at 30 June 2016, the number of posts subject to geographical distribution was 3,582 (see General Assembly resolution 65/247, para. 67). The difference between the number of posts subject to geographical distribution (3,582) and the number of staff with geographical status serving against a geographical post (2,952) is accounted for by 264 posts that are vacant, 315 posts that are temporarily encumbered by staff without geographical status and 51 personnel with limited appointments. In addition, the total of geographical staff (2,982) includes 30 staff in the young professionals programme serving against non-geographical posts.

38. The representation of Member States falls into four groups: unrepresented, underrepresented, within range and overrepresented. A Member State is considered "unrepresented" when not a single one of its nationals, after having gone through the established selection process, is serving in a post subject to geographical distribution. It is "underrepresented" when the number of its nationals appointed to such posts is below the lower limit of the desirable range; it is "within range" when the number of its nationals appointed to such posts is between or at the lower and upper limits of the desirable range; and it is "overrepresented" when the number of its nationals appointed to such posts exceeds the upper limit of the desirable range.

39. The representation of Member States under the system of desirable ranges over the past five years is shown in table 18. Table 19 shows the representation status of individual Member States as at 30 June 2016, as well as the representation status as at 30 June 2015 if it is different from that as at 30 June 2016. Table 2.A (see annex) provides a detailed breakdown of Secretariat staff with geographical status by nationality, grade and gender, including information on appointments, separations and balances as at 30 June 2015 and 30 June 2016. Table 2.C provides a breakdown of staff in posts with special language requirements by nationality, grade and gender.
